

## Checklist

**Please note:** All first-time visitors to the Philippines should also be sure to browse our Practical Information page, where we list all of the information essential to the planning of your holiday and getting the best from your stay at Neptune Diving Resort Philippines.

### All Visitors

Dive forum published that an estimated of 28% of traveller leave something at home; don't be one of them.

### What Information Should I Provide Before I Arrive!

90 Days Prior - (upon booking if it's within the ninety days).

- Name as it appears in your passport.
- International travel itinerary/flight details 30 Days Prior.
- Expedite the check-in process and let us know your dive, dietary and other preferences.
- Check-in online [CLICK HERE](#) You will need your passport and dive certifications to hand to complete the process.

### What Visas and Travel Documents Are Required?

Please ensure your passport is valid for at least six months and that you have an onward or return ticket. U.S. and European nationals typically receive a 30-day tourist visa on arrival.

For the latest information on visa requirements see [www.immigration.gov.ph](http://www.immigration.gov.ph).

### Do I Need Insurance?

Medical and dive accident insurance is highly recommended and mandatory for all liveaboard charters We highly recommend each guest purchase trip cancellation and interruption insurance. Weather conditions, health problems and many other unforeseen reasons can change travel plans and/or cause financial losses that should be insured against.

Cancellations, losses and disruptions caused by reasons outside of Atlantis' responsibility will be shouldered by the guest unless they are insured.

Atlantis does not promote or recommend any particular insurance company, but you may find the following links useful:

DAN [www.daneurope.org](http://www.daneurope.org) and Dive Assure [www.diveassure.com](http://www.diveassure.com)

### What Should I Bring With Me?

Issued Travel Voucher indicating your vacation inclusions Dive certification card & Logbook Dive, Travel & health insurance details Atlantis contact details and Meet and greet locations. Casual and light clothing Swimsuit/shorts T-shirts and a light jacket for evenings Hat & sunglasses, Sandals, Sunscreen If you plan to dive a lot we recommend bringing extra layers, a hooded vest or thicker suit, you will lose body heat despite the warm weather and water.

## **Divers**

This is just a basic list to serve as a reminder when packing your equipment. You may have a special kit configuration with requirements that are not covered here. Spares in particular might be a problem to obtain in the Philippines, especially when there are so many different models and brands of equipment. So, if there is a remote chance that something might break or be lost, it is worth carrying a replacement. Console and secondary regulator holders are essentials: you don't want sensitive equipment dragging across the even more sensitive coral. If you do forget something or do not have a full set of your own dive gear, remember that we stock a comprehensive range of excellent for hire equipment.

## **Diving Equipment**

- Regulator
- BCD
- Weight Belt (no weights)
- Suit (to match the season)
- Boots
- Mask
- Fins
- Snorkel
- Torch
- Computer
